Profile

I am a third-year software engineering student with a strong interest in using technology to solve real-world problems. Through the community education program at A2SV, I have strengthened my problem-solving abilities and gained a deeper understanding of data structures, building a solid foundation to approach complex challenges.

Education

2023/02 – 2027/07
Addis Ababa, Ethiopia

Bachelor of science in software engineering
Addis Ababa University

- **relevant Coursework** : Data Structures and Algorithms, Object-Oriented Programming, web development
- **CGPA**- 3.56/4

Projects

2024/06 – 2024/07

Netflix Clone

- Built a Netflix replica using React.js and the TMDb API to access movie information.
- Implemented functionalities like video trailers, user authentication.
- Crafted responsive user interface with CSS and Material-UI to ensure a smooth user experience on all devices.
